Professor: O, Neil

Name: Farah Naz

Submitted: April 10, 2021

Graphic design, web design and development, photography, video and photo editing are my passions. Creativity and innovation make me more passionate towards my work. Although, modern technology has made web design, graphics design and digital arts more appealing, versatile and convenient for artists, designers, and the public as well . But , it still requires solid design foundation and knowledge of design along with design thinking to become more successful in the market. Since my teenage years, I was passionate about design, art and decor. I graduated with honors in web-design in 2005. In the current era we need to be more compatible in design. Farah's Design is here to provide you all the services of web design, graphic design, digital art logo design, business & event cards, photography and much more. You can find your digital solutions at one stop. Farah's design is dedicated to provide compatible, creative, and innovative solutions with the touch of simplicity. Providing best services is our priority!

Photography

Photography is an art of capturing special moments.

Each picture tells us a story, we need to perceive that.

Digital art makes our pictures livelier, and attractive.

Our services includes:

1 For responsive web design & development

2 Portrait/event photography, and photo editing

3 Graphic design including; logo creation, business and invitation cards, brochures, etc.

4 Video editing, digital photo story etc.

5 Social media page creation and web site maintenance.
